

Praveen Kumar Suthar

Engineering Lead | Staff Software Engineer | AI-Enabled Platform Engineering | Distributed Systems

Engineering Lead with 10+ years of experience building scalable e-commerce platforms, distributed systems, and cloud-native microservices serving millions of users. Experienced in Node.js, AWS, Kubernetes, MongoDB, Redis, event-driven architecture, and engineering leadership. Actively leveraging Generative AI, Claude Code, AI Agents, and AI-assisted software development workflows to improve engineering productivity, accelerate delivery, and automate software engineering processes.

EXPERIENCE

Team Lead | Sociolla

August 2020 — Present

Gurgaon

Achievements/Tasks

- Leading a cross-functional engineering team of 10 developers across e-commerce, POS, marketplace integration, inventory management, and mobile commerce initiatives.
- Architected and scaled commerce platforms supporting 250+ retail stores across multiple countries, processing 60K+ orders daily.
- Built and maintained 25+ production microservices handling 50M–80M monthly API requests with 99.9% platform availability.
- Designed marketplace integration frameworks reducing onboarding timelines from 3 months to 2 weeks.
- Implemented Redis caching, asynchronous processing, and event-driven architecture patterns resulting in 60% API performance improvements and 3x traffic scalability.
- Established CI/CD pipelines and engineering standards reducing deployment time by 75% while maintaining 99.8% deployment success rates.
- Led architecture reviews, system design discussions, technical mentoring, and engineering excellence initiatives across teams.
- Introduced AI-assisted development workflows using Claude Code for implementation planning, debugging, documentation generation, architecture validation, and PR reviews.
- Built internal engineering productivity agents including:
 - PR Review Agent
 - Engineering Leadership Agent
 - Sprint Planning Agent
 - Sprint Tracker Agent
 - Bug Fixer Agent
- Improved developer productivity through AI-assisted engineering practices and automated technical analysis workflows.

Senior Software Developer | Kashware

Senior Software Developer

May 2020 - Aug 2020

Gurgaon

Achievements/Tasks

- Developed fintech MVP solutions, improved code quality by 35% and reduced bugs by 50%
- Mentored 2 junior developers through daily code reviews and pair programming sessions, improving team code quality scores by 35% and reducing bug reports by 50%

Application Engineer | Unicommerce

May 2018 - May 2020

Gurgaon

Achievements/Tasks

- Built Supply Chain solutions for Uniware platform serving 1000+ sellers across India

AI ENGINEERING & DEVELOPER PRODUCTIVITY

- Used Claude Code extensively for architecture reviews, PR analysis, debugging, code generation, documentation, and large-scale refactoring.
- Reduced implementation effort and accelerated development workflows through AI-assisted engineering practices.
- Built multiple engineering productivity agents supporting sprint planning, code reviews, bug analysis, and leadership workflows.
- Exploring Agentic AI systems, multi-agent workflows, MCP concepts, and AI-native software engineering practices.
- Engineering Lead who builds large-scale systems and successfully applies AI to engineering productivity.

SKILLS

Programming Languages : JavaScript, TypeScript, Node.js

Backend Engineering: Node.js, Express.js, REST APIs, Microservices, Event-Driven Architecture

Front-end Development: Vue.js, Angular.js, React, React Native, Bootstrap, HTML/CSS

Cloud & Platform Engineering: AWS, Kubernetes, Docker, Redis, RabbitMQ, CI/CD

Monitoring & Logging: Prometheus, Grafana, New Relic, and Kibana

Databases: MongoDB, PostgreSQL, Redis, Elasticsearch

Version Control & Collaboration: Git, GitHub, Bitbucket

Observability & Reliability: Prometheus, Grafana, Kibana, New Relic

Architecture & Design: Distributed Systems, Domain Driven Design, BFF, CQRS, Event Sourcing

AI & Developer Productivity, Claude Code, Generative AI, AI Agents, Agentic AI, Prompt Engineering, Developer Productivity Workflows

OPEN SOURCE & THOUGHT LEADERSHIP

PR Agent

- GitHub: github.com/PraveenMistry/pr-agent

Promise-Cap

- NPM Package: [npmjs.com/package/promise-cap](https://www.npmjs.com/package/promise-cap)

- Integrated 30+ external platforms reducing manual processing by 80%
- Supported Uniware, a unified commerce tool leveraged by over 1000 sellers and brands in India, by integrating 30+ external platforms (marketplaces, carts, logistics, ERP systems) using API-driven microservices to streamline operations, reducing manual processing time by 80%

Software Developer | Helios Web Services

Software Developer [🔗](#)

September 2016 - May 2018

Jaipur

Achievements/Tasks

- Developed Angular.js dashboards and APIs for Thinglogix IoT platform with UX optimization focus
- Built interactive features and dashboard UIs using AngularJS, CSS, and jQuery for the Thinglogix platform, focusing on improving UX through animation and validation layers.

Web Developer | Mr. P Mediaworks

Web Developer [🔗](#)

July 2015 - September 2016

Jaipur

Achievements/Tasks

- Built CMS websites and healthcare platform (Docto) emphasizing performance and maintainability
- Collaborated with cross-functional teams to design and implement a healthcare platform (Docto), delivering key business features with a focus on performance and maintainability.
- Coordinated with clients for UI/UX feedback, design-to-code delivery, and post-launch support.

EDUCATION

BACHELOR OF TECHNOLOGY

RAJASTHAN TECHNICAL UNIVERSITY,
KOTA

June 2011 - July 2015

Completed B.Tech with honors

- Computer Science

SENIOR SECONDARY

GOVT. SR.SEC.SCHOOL, SIROHI

June 2009 - June 2011

Completed Sr. Sec. With 69.08%

Rebootify

- Lightweight Node.js development productivity tool focused on faster development workflows.

Technical Writing

- Published technical articles on software architecture, Node.js development, engineering producti

AI & ENGINEERING INITIATIVES

PR Review Agent

- **Automated code review workflow using Claude Code**

Engineering Leadership Agent

- AI assistant for team insights, workload analysis, sprint health tracking and leadership support.

Sprint Planning Agent

- Automated sprint planning and backlog analysis.

Sprint Tracker Agent

- Delivery monitoring and sprint progress visibility.

Bug Fixer Agent

- Root cause analysis and debugging assistant.

AI Coding Assistant

- AI-powered engineering productivity workflow supporting code generation and implementation planning.
